Virginia Eye Consultants Expands to Suffolk

SUFFOLK, Virginia (February 11, 2014) Virginia Eye Consultants has recently expanded by opening a new location in Suffolk, at 2463 Pruden Boulevard. To celebrate their opening, they are hosting an Open House on Wednesday, February 12th, from 5:30 p.m. to 7:30 p.m. Tours of the practice will be offered and the public is invited to attend.

Virginia Eye Consultants was established 50 years ago and has locations in Norfolk and Hampton, Smithfield and now, Suffolk. Their experts provide routine ophthalmic care as well as sub-specialty care. Sub-specialty trained surgeons work with cases such as eye disease, glaucoma, oculo plastics (for cosmetic or eye trauma), LAZIK, retinal disease and corneal transplants.

The expansion to Suffolk will allow Virginia Eye Consultants to reach a new group of clientele. They have already invested over \$250,000 in renovations and new high-tech equipment, such as laser care, for the Suffolk location. An additional three patient exam rooms were built, bringing the total to eight.

“We are extremely happy with the progress we have already made by expanding to Suffolk,” pointed out CEO Karen Spencer. “The people in the community have really responded favorably to the services we offer in-house that were not available to them before.”

“Access to high-quality medical care is such an important aspect of a community’s quality of life,” said Suffolk Mayor Linda T. Johnson. “We are so pleased Virginia Eye Consultants has expanded their medical services to Suffolk.”

Hours of operation are Monday through Friday, from 7:30 a.m. to 5:30 p.m. Learn more at www.virginiaeyeconsultants.com or call 757.622.2200.
